

Skills for Education and Employment (SEE) Program

INVEST IN YOUR WORKFORCE!

We understand the importance of investing in your workforce. The SEE Program is here to help you achieve that, with training available to improve your employee's LLND skills. It provides your people with the skills they need to grow with your business and succeed in their roles.

Flexible training options can be tailored to meet the specific needs of your business. Our experienced trainers can deliver the training directly to your workplace, at a time convenient for you and your employee – and it's all free!

Workplace-Based Training!

The SEE Program enables employers, industry associations, and unions to collaborate with a SEE Provider. This partnership offers customised, on-site training designed to meet specific business needs.

- **Employers:** Access training that matches your specific requirements.
- **Industry Associations:** Help members by setting up tailored training projects for their employees.
- **Unions:** Coordinate training for member groups, focusing on specific skill enhancements.

Support the learning and development needs of your most important asset: your people.
